

## **FINANCE**

**4 semesters, 2 years**

**Full time programme, taught in ENGLISH**

The **MSc Finance**, organized by the School of Finance and Accounting, is intended for persons who wish to develop their international competences and know-how in finance. The studies focus on financial investments and modeling, develop the students' understanding and knowledge of global financial environments, financial management and innovation as well as international regulations.

The primary task undertaken by the Master in Finance is to prepare students so that they meet the challenges posed by their employment in companies that are compelled to carry out activities in a business environment increasingly internationalized, technological and competitive, by providing training and a relevant experience in the field and which are to be recognized both nationally and internationally. Therefore, the Master in Finance aims to address the curricula not only in theoretical terms, but also to create multiple connections between practice and research.
