2023-2024

**International Economic Relations
and European Union Studies**

DUAL DEGREE PROGRAMME

**School of International Business and
CITY College, University of York Europe Campus**

MSc International Economic Relations and European Union Studies

(2 years, full time, taught in ENGLISH)

DUAL DEGREE PROGRAMME

offered by the School of International Business and CITY College, University of York Europe Campus

A Master course is an academically rigorous program during which you explore your subject in depth, reaching a high level of specialized knowledge. You draw on knowledge and skills from your undergraduate study or your professional life to produce work of a high academic standard, informed by current thinking and debate.

A postgraduate qualification is a major achievement and greatly valued by employers. Recent surveys show that higher degree graduates are more likely to obtain jobs at professional or managerial level and less likely to be unemployed. Job prospects are plentiful. The master program aims at delivering graduates who are ready for professional life. The unique combination of an all-around training, in-depth courses, a high academic level, input from practitioners and professional experience, maximizes the chance to find a job and professionally excel.

The MSc in International Economic Relations and European Union Studies (IEREUS) is offered as a **dual degree programme** by the **School of International Business** and **CITY College, University of York Europe Campus**. Thus, the program offers students the opportunity to earn a degree from both universities and benefit from a truly international educational experience, without any other costs other than the tuition fee.

The Master in International Economic Relations and European Union Studies is intended for persons who wish to develop their **international competences and know-how in international relations and European integration process**. In a highly volatile and ever-changing international environment where the European Union remains one of the world's centers of socio-economic and political activity, knowledge on EU and global issues has become increasingly important to both academia and industry.

This master program offers students the **knowledge and skills to critically engage with International Economic Relations, EU public policy and global governance issues**. It is based on four pillars: knowledge, skills, experience, and career opportunities. Moreover, through the internship students have the opportunity to expand their network and gain valuable work experience. Graduates can pursue an exciting career in international organizations, NGOs, local and regional government agencies, business, consultancy, and further academic degrees (PhD).

Professional competences:

- Capacity to analyze and implement activities in the sphere of economic diplomacy, as well as the capacity to formulate strategies and policies for development both for national and international cooperation.
- The ability to support the implementation, development, and coordination of European and national policies.
- Development and implementation of international promotion strategies in the economic-diplomatic environment
- Leading international negotiation processes carried out by entities with a global vocation.
- Capacity to organize and coordinate activities of entities with a global vocation in respect to specific, national, community and international regulations.

Transversal competence:

- The ability to critically assess, evaluate, analyze and creatively and efficiently solve concrete economic situations in the field of specialization.

The curriculum provides minimum **120 transferable study credit points (ECTS)**, 30 ECTS per semester. There are four semesters in two years.

Subjects from the first year of study are delivered by the **CITY College, University of York Europe Campus** according to the structure and the academic regulations established by the university.

More specific details can be found on the program webpage:
<https://york.citycollege.eu/frontend/articles.php?cid=520&t=MA-in-International-Relations-and-European-Union-Studies>

Subjects from the second year of study are delivered by RAU, within the School of International Business. For the evaluation of the students, the School of International Business applies the methodology of the **Romanian-American University**, included in the regulations on the professional activity of students and it relies on two criteria: **attendance** and **performance**.

The curriculum includes **compulsory subjects** and **elective subjects**.
