\* Counseling hours are available for the scheduled rooms in campus.

In case the student and teacher agree on an online scheduled counseling time this must be setup through the MS Teams RAU platform, based on the below procedure:

- **The student must ask for a scheduled meeting through a message by institutional email** (an email from the student's institutional email account to the professor's institutional email account), mentioning a day and hour inside the published counseling schedule, **with at least 48 working hours before the desired scheduled time.**
- The teacher must send a *reply* message by email, regarding the **confirmation/rejection of the scheduled meeting, no later than the day before the scheduled meeting.**
- The video session, at the scheduled and agreed day/hour, is done by direct call between the two participants, from the *Calls* section inside the MS Teams application. The teacher will initiate the call to the student's institutional email account.
